PROJECTS

- [Hajde](#)

- [Dora 2](#)

- [Citadels](#)

Lecturer Java

(May 2020 - Present)

As of May 2020 I am a lecturer for new students for Java Fundamentals. The course is based on OO Programming with a slow pace for students to grasp the material and be able to process it.

Employee mgmt.

(March 2019 – May 2019)

As an intern I worked on this project as a backend engineer, Front-End and as PM. This platform was developed in Java SpringBoot + Thymeleaf with MySQL database and it's purpose was registering employees, keeping track of their work time and vacations.

The platform supported weekly, monthly reports, notifications and had an internal calendar for employees to request vacations

Up-Work projects

(2013 - 2016)

I worked as a software developer on various projects on Up-Work platform

Hajde

(2020 - Present)

The application "Hajde" was created in order to reduce the number of vehicles on the roads of Kosovo, Albania, and Northern Macedonia so that air pollution in our countries is smaller!

Application was built with Flutter.

Dora2

(2018 – 2020)

I worked on this project as a Full stack developer. Dora2 is a classified ads platform completely developed in Java SpringBoot + Thymeleaf with MySQL database.

Citadels

(Dec 2018 – Feb 2019)

I worked on this project as a backend engineer and as a PM. This Boardgame was a project from our university and was built in three different platforms. Backend was Java/Spring, web was built in Angular and mobile platform was built with Android Studio. All communication was based on Sockets.

- [Social Radar](#)

Social Radar

(Jan 2018 – Dec 2018)

I worked on this project as a backend engineer and as a PM. This was a platform for visually presenting the sentiment and other properties of various twitter tweets such as Subjects, Sentiment, Top hashtags etc., through different graphs.

The feed of Twitter was analyzed by a third party AI that allowed us to consume their API.

- [House of Hair](#)

House of Hair website

(2018 – Present)

Implementation of the saloon's website.
